Degree

@Fontys University

Software Engineering Bachelor's Degree

Experience

Software Engineer @SiteLucent

Senior Software Engineer at Sitelucent, leading the development, maintenance, and scaling of the platform. Worked on transitioning the system from a **monolith** to micro-services on AWS, building and maintaining critical **ML services**, and **mentoring** junior engineers to support team growth and code quality.

https://www.sitelucent.com   APR 2021 - PRESENT

Software Engineer @PeerCode

Full stack software engineer at peercode, working mainly on a patient telemonitoring system called Atris.

https://atris.life   Aug 2020 - FEB 2021

Software Engineer @Certwell

Full stack software engineer at certwell, developing new features for certwell digital products.

https://www.certwell.com   APR 2019 - APR 2020
